Question Cards, Answer/Score Pad, Two Pencils

Object

Fill in the bubbles at the top of your answer sheet by correctly matching which player wrote which answer to any of the 200 questions.

Set-Up

1. Place the question cards face down in the middle of the play area.
2. All players take an answer sheet and write their name at the top.
3. Shortest player goes first. Play moves clockwise.

How To Play

1. Pick a card and read aloud your favorite question.
2. All other players write down their personal answers to the question. (Share the pencils or grab more.)
3. All answer sheets are then collected by the player to your right (the 'Reader'), shuffled and read aloud. Players should not give any hints while answers are read aloud.
 - You will not see the handwriting, because the player to your right reads the answers aloud.
 - It helps to hear the question again before answers are read aloud.
4. After hearing ALL of the answers, you must attempt to match which player wrote which answer.
 - Make all of your matches before answers are revealed...not one at a time.

5. After you try to match ALL of the answers, the 'Reader' reveals how many answers you matched correctly.
6. For every correct match, fill in one bubble at the top of your answer sheet. Play moves clockwise.

How To Win

In a 4-5 player game, the player with the most bubbles filled-in after three full rounds of play wins. In a 6-player game, the player with the most bubbles filled-in after two full rounds of play wins. If there is a tie, then 2+ players share the win.

- A full round means all players have one turn.

Notes On Play

- There are no right or wrong answers. Just write neatly!
- Players will decide how long players have to write and guess answers.
- Place used cards at the bottom of the card deck.
- Add the enclosed cards to our bestselling Loaded Questions® board game for hours of fun!
